

CREATIVE PROBLEM SOLVING GUN VIOLENCE

Use the following approach for each step of the study

- 1. According to “Gun Violence,” from the Congressional Quarterly what is the “mess” that Americans need to address?**
- 2. What facts and or data do you have to work with?**
- 3. What is the real problem that is creating the identified mess?**
- 4. What ideas can you brainstorm that could have alleviated the problem?**
- 5. What solutions seem most feasible from your brainstorming?**
- 6. Apply your solutions to identify your best over all option. Then, analyze the cause effect. What do you think would be the repercussions of these actions?**
- 7. In groups of 4, for tomorrow, create a 3-5 minute presentation that summarizes this problem and your creative solution. Your presentation must show organization, address the mess, as well as pertinent data, and repercussions.**
